LOCK MOVES FORWARD WITH CONSTRUCTION OF A VILLA IN RESTELO, LISBON

Lock is currently building a villa in Restelo, Lisbon, a project that combines contemporary architecture with high-quality outdoor spaces, including a pool, garden, private parking, and a privileged view over the surrounding area.

Lisbon, 07/09/2026 — Lock, a Portuguese architecture and construction company founded in 2015, is currently carrying out the construction of a spacious villa with a garden in Restelo, one of Lisbon's most sought-after areas. The project reinforces Lock's position in the luxury housing segment, combining technical rigor, quality of execution, and attention to detail at every stage of the build. The villa was designed to offer space, comfort, and a natural connection with the outdoors, through a spacious garden integrated into the property's architectural design, with a privileged view over the Tagus River. This project reinforces Lock's strategy of building luxury villas across the country's various regions.
